

Press release 14 October 2022

Interview with Victor Pallaruelo on Radio 5 – Program “El laboratorio de Jal”

Project partner Victor Pallaruelo talks about ULISES during the format “El Laboratorio de Jal” of RADIO 5, one of the most popular online radio stations in Spain.

In September 2021, Victor Pallaruelo, a researcher in biomedical research and author of the ULISES project, participated in an episode of “El Laboratorio de Jal”, a scientific format by Radio 5 RNE, one of the most popular online radio stations in Spain.

The focus of the discussion with the journalist was on what ULISES intends to achieve in the field of pancreatic cancer treatment.

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under Grant Agreement N° 899708
