RKW Group NV from Belgium joining HortEx Vietnam 2018!

By Nova Exhibitions BV

<http://www.nova-exhibitions.com>

HortEx Vietnam 2018 is the first specialised exhibition and conference for Horticultural and Floricultural Production and Processing Technology in Vietnam.

The RKW Group is an independent, family-owned company and one of the world's foremost manufacturers of excellent film solutions. RKW is the market leader in the areas of hygiene and agricultural films, films for the beverage industry and packaging for powdery goods. In addition, the company makes films and nonwovens for medical applications, for the chemical and converting industries as well as for the construction sector.

One of the applications used in Horticulture is the air bubble greenhouse film Polydress® LP-Keder which is a lightweight, tear-resistant material that you can cut easily with a knife and scissors. It simplifies your greenhouse construction and reduces the building time, allowing an installation in record time. Uniform illumination and a favorable microclimate promote plant growth. For the entire product range please visit: <http://www.rkw-group.com/products-solutions.html>

In the fiscal year 2016, RKW generated total sales of EUR 902 million. About 3,000 employees process 380,000 tonnes of plastic materials at more than 20 locations around the world.
